In Appliances Manufacturing*

About Sujata

BRAND STATEMENT

ABOUT

SUJATA 

There was a time when India was not known to produce quality engineering products, it took a visionary to break that perception. Sujata was born in 1979 with a continuous pursuit of perfection. Shri Brijmohan Mittal, our esteemed founder, took it as a challenge to innovate, design, and completely manufacture a world-class product in India. Sujata has built its legacy over forty years, with its mixer grinder, trusted and loved by housewives across India for excellence in performance and proven durability. At Sujata, we've always believed in innovative technology to bring out the fines of products.

The passion and engineering excellence that shaped the Sujata Mixer Grinder and made it such a success continues with the Sujata range of Fans. Sujata Fans are certain to carry the legacy further, and rule the hearts and homes of thousands of quality conscious customers who do not settle for anything but the best. Today, Sujata products are loved in more than 18 countries, testimony to the fact that we can make quality products in India.

About Sujata

Mission

To offer customers a choice of appliances that re energy-efficient, durable and easy to use. To build products with a focus on quality, reliability, innovation, and value. To provide superior customer service, support and after-sales service. To strive to be a leader in the appliance industry by offering new products and technologies that are reliable, efficient and affordable. To make a positive contribution to society by providing jobs, supporting local economies, and contributing to global sustainability efforts, with 'Make in India' appliances for the home.

Vision

We strive to be the leading provider of home appliances, offering products that are reliable, innovative, and of the highest quality. We want to provide our customers with a range of products that they can trust for years to come. We are dedicated to providing exceptional customer service, and we strive to exceed customer expectations in all areas. We believe in being open and hones with our customers, and we strive to build trust and long-term relationships. We are committed to making a positive impact on our environment, and we strive to create products that are energy efficient & environmentally friendly.
